Her Key Achievements

Increased hiring of underrepresented talent by 700% through the launch of data-driven local talent acquisition program at Facebook

Delivered 26% increase in diverse talent hiring through community job fair expansion

Introduced global Diversity Talent Acquisition Summit at Facebook, attracting 1200 attendees

She has successfully created strategic partnerships between corporations, government agencies, and community organizations to expand talent pipelines and develop support frameworks to improve retention rates.

Bernita has been able to deliver industry-leading results for the world's largest tech firms, such as Facebook and Google, through the development of comprehensive DEI strategies. By designing inclusive frameworks beyond talent acquisition to incorporate learning and professional development, employee resource groups, and compensation and advancement, she has successfully driven increases in diverse representation in talent pools and reversed attrition patterns.
